EXPLANATIONS

1. Academic Year—For the sake of uniformity, the academic year in these tables is taken to coincide with the financial year, *i.e.*, to extend from 1st April, 1962 to 31st March, 1963.

2. The Statistics relate to only Recognised Institutions, *i.e.*, those in which the course of study followed is either prescribed or recognised by the Government or by a University or a Board of Secondary and Intermediate Education constituted by law and which satisfy one or more of these authorities as the case may be, that, they attain a reasonable standard of efficiency. They are open to inspection and their pupils are ordinarily eligible for admission to public examinations and tests held by the Government or the University or the Board.

3. Research Institutions—Only those research institutions have been taken which provide facilities for teaching.

4. Enrolment—For definiteness, the enrolment in the institutions on 31st March, 1963 is taken.

5. Expenditure—In calculating the expenditure from Government, District or Municipal Board funds, all payments or contributions from fees and other sources, which are credited to such funds are deducted.

6. Local Boards include District, Municipal and Cantonment Boards and Town Area Committees.

7. Examination Results include those of private candidates also.

8. Indirect Expenditure represents the amount incurred on direction, inspection, buildings, furniture, scholarships and other miscellaneous items. Its nature is such that it cannot be apportioned to each type of institution.

9. The figures are provisional at places due to non-availability of corrected figures from some States.

This image shows a single sheet of aged, cream-colored paper designed for handwriting practice. It features two solid black vertical lines that create three columns of equal width. Each column contains ten horizontal dotted lines, providing a guide for letter height and placement. The paper is otherwise blank, with no text or markings other than the printed lines.
